**CRYSTAL PALACE COMPANY.**

Notice is hereby given, that the Twenty-third Ordinary General Meeting of the Proprietors of this Company will be held at the London Tavern, Bishopsgate Street, in the City of London, on Friday, the 21st of December inst., at One o'clock precisely, for the purpose of receiving a Report from the Directors, and of transacting the ordinary business of the Company, as prescribed by the Deed of Settlement and Charter.

The Meeting will be made Special, to consider a Notice of Motion given by Mr. James Girdlestone, to rescind the Resolution passed at the last Meeting, on the Motion of Mr. Baxter Langley, in favour of opening the Palace on Sunday Afternoons.

The Books kept by the Company for the Registration of Transfers of Stock will be closed from the 7th to the 21st December instant, both days inclusive.

By order,

G. GROVE,  
*Secretary.*

REPORT of the Directors, to be submitted to the Twenty-third Ordinary General Meeting of Proprietors, at the London Tavern, Bishopsgate Street, at One o'clock precisely, on Friday, the 21st December, 1866.

---

THE Directors have much pleasure in submitting to the Proprietors the Accounts of the Company for the twelve months ending October 31st, 1866, which exhibit a better result than those of any year since the existence of the undertaking.

The Revenue Account shews a balance to credit of £59,211

10s. 11d., which, when added to £1,284 6s. 2d., the balance carried over in January last, makes a total amount of £60,495 17s. 1d. applicable to dividend. After deducting the dividends on the Preference and Debenture Stocks, and the balance of Interest Account, a net sum of £28,339 3s. remains to the credit of revenue. Out of this the Directors recommend that a Dividend of two and a-half per cent be declared on the Ordinary Stock, which will leave a balance of £3,272 5s. 6d. to be carried forward to next year.

The number of visitors during the year has been 2,067,598, a number larger than during any previous year, and exceeding those of the preceding twelve months by no less than 309,082, of whom 149,525 were visitors paying the price of admission for the day.

The Directors continue to keep a careful watch over the expenditure in all departments of the Palace and Grounds—both the ordinary working expenditure of the establishment, and the special outlay for attractions. The former of these, when not before the full Board, is in the charge of a Committee of Directors, whose endeavour is to keep it down to the lowest level reached in former years, without neglecting the works necessary to maintain the undertaking in full efficiency and repair. The amount under this head has been swelled during the past year by the renewal of the boilers for heating the Building, by the completion of the internal illumination, the enlargement of the Concert Room, and other works, amounting in all to about £4,000—works which, as necessary and as mate-

rially improving the Palace, are satisfactory in themselves, and might very fairly have been charged to Capital.

Under the head of outlay for special attractions, the expenditure during the past year also calls for remark. These undertakings are invariably submitted to the full Board, who have for their guidance a complete system of returns representing the outlay and results of similar events in former years. It would be gratifying to the Board to dispense with many of these special events, but it is evident that the Company's returns, direct and indirect, increase in a proportionate ratio as such popular attractions are presented, and the necessity for their continuance, in a greater or less degree, as circumstances arise, is therefore obvious. The Board think it requisite thus specially to allude to the cost of these attractions, as it is owing to them that the receipts of the past year exceed those of any former year except 1862, when the Exhibition took place, in which (as was also the case in 1864-5) the profits of the Handel Festival were included.

The change in the mode of issuing the Guinea Season Tickets, by which they date from the commencement of the month in which they are purchased, has continued to work well, and three thousand more have been sold than during the previous twelve months.

The attraction of the Saturday Concerts is still on the increase, as is conclusively shown by the crowded state of the Concert Room on every occasion, and by the large advance in the amount taken for Reserved Seats.

The Exhibitors' Department has fully maintained its position, and the receipts show a slight increase over those of former years.

The Refreshment Department participates in the general increase in the number of visitors, and it will be observed that the revenue from this very important source has reached the large sum of £19,613 16s. 7d. The Directors continue to be satisfied with the manner in which the service of this Department is conducted by the contractors.

Since the meeting in June last, the Company has sustained a truly severe loss in the decease of Mr. Thomas Newman Farquhar, the Chairman, who died after a very short illness on the 30th July last, after having filled the Chair for nine years. He was seized with the attack under which he sank, on his way from the Board meeting of the Company to his own residence. It is unnecessary to recall to those proprietors who are in the habit of attending the meetings, the intimate acquaintance with all the Company's affairs, and the admirable courtesy and temper, which Mr. Farquhar displayed on every occasion on which he occupied the Chair; but the Directors think it right to embrace this—the earliest opportunity—to put on record publicly their regret for the loss of a valued friend and a still more valued coadjutor, and the sense they entertain of the unwearied and unselfish manner in which, during the period referred to, he devoted his time and abilities to the service of the Company, and by which he was enabled at

length to leave it in the firm and solid position which it now occupies.

The Board do not recommend that the vacancy created by Mr. Farquhar's decease shall be filled up before the June meeting, the regular time for the election of Directors. In the meantime the Directors have elected Mr. Arthur Anderson as their Chairman.

At the conclusion of the ordinary business the Meeting will be made Special, to consider a Motion, of which the Directors have received notice from Mr. James Girdlestone, and which Motion is stated *in extenso* at the foot hereof.

By order of the Board,

ARTHUR ANDERSON,  
*Chairman.*

CRYSTAL PALACE,

*December 7th, 1866.*

---

MOTION TO BE MADE BY MR. JAMES GIRDLESTONE.

The Company regret to learn that at the last Shareholders' Meeting a Resolution (put forward as an Amendment) was proposed by Mr. Baxter Langley, seconded by Mr. Billings, and carried by a majority

of such Shareholders as were present, of which Resolution the following is a copy:—

“ That this Meeting regards as offensive the conduct of a small minority of the Shareholders who repeatedly seek, upon a variety of pretences, and under various philanthropic professions, to enforce conformity of religious conduct upon persons who differ from them, but who have an equal right to conscientious freedom, and who consider that in seeking to enjoy the beauties of the Crystal Palace and Grounds on Sunday they are committing no sin against any Christian principle, and are no more open to condemnation—even upon Sabbatical and Judaic grounds—than those who in their own houses and grounds employ their domestic servants to minister to their comforts and luxuries on that day. That inasmuch as the whole proprietary of this Company have twice by large majorities declared in favour of the Sunday opening; and inasmuch as two General Meetings have, by formal votes, called upon the Directors to take steps to obtain the opening of the Palace to the public on Sundays; and inasmuch as several thousand shares have been bought for the purpose of securing the privilege of visiting the Grounds and Palace upon the only day upon which it can be visited without the sacrifice of a day’s wages by the artisan;—This Meeting protests against the repeated attempts of a small Sabbatarian minority to thrust their impracticable views upon those who differ from them upon conscientious grounds. And lastly, This Meeting expresses its regret at the continued exclusion of the public from the Palace on Sunday afternoon, and declares more strongly than ever its conviction that the original Directors erred most grievously, both for the interests of the Shareholders and the culture of the people at large, by admitting—at the instigation of the Lord’s Day Society—a clause into the Charter, whereby the masses of the population resident near London are deprived of rational and elevating recreation, which the Crystal Palace and Gardens can pre-eminently afford, on a Sunday afternoon.”

Upon the foregoing resolution, the Shareholders first observe that no notice of the intention to submit it to the Meeting was given to the Shareholders; and next, the Shareholders, without expressing any opinion on the question of the Sunday opening, rescind the resolution on the ground of its intemperate language.

And the Company feel it only fair to state that the question of the Sunday opening has been raised by a poll on two occasions only, namely, in 1858 and 1859, when a proposition to admit Shareholders on Sunday afternoons (without allusion to any other persons) was

carried and supported, and that the following is a true account of these polls :—

Polling.	Total Votes available.	Votes unpolled.	Total Votes polled.	In favour of such opening. In favour of Board.	Against such opening. Against Board.	Net majority for Board.
1858	232,557	169,672	62,885	43,480	19,405	24,075

## AUDITORS' REPORT.

---

*To the Shareholders of the Crystal Palace Company.*

WE have examined and audited the Accounts of the Company for the year ending the 31st October, 1866, and we find that the Balance Sheet, the Capital and Revenue Accounts, and the other relative Statements, are in due accordance with the books of the Company, are properly supported by Vouchers, and contain a true exposition of the Company's affairs, and of the financial result of the year's operations.

The amount charged during the year as Expenditure on Capital Account is £3,000.

Due distinction of the Expenditure is maintained in the Accounts as between Capital and Revenue.

QUILTER, BALL, AND CO.  
*Auditors.*

3, MOORGATE STREET, E.C.,  
11th December, 1866.
